C.N. 11/39/05/2004 - EDI

27.05.2005

PUBLIC NOTICE NO. : 12/2005

सार्वजनिक सूचना : 12/2005

Sub: Bank Reallocation Certificate (BRC) verification module for EDI System-Exports (ICESA) at the Custom House

The Importers, Exporters, Custom House Agents and the trade are informed that RBI has decided to waive the submission of declaration of Form QR/SDF/PP/SOFTEX in respect of the goods and software of value upto US \$25,000 or its equivalent.

2. It has, therefore, been decided by the Board, that the Customs must ensure the receipt of the foreign exchange in case of drawback cases.

3. Accordingly, a BRC verification module for drawback cases has been developed. The salient feature of the BRC module are as follows:

- A screen for BRC entry has been created in the Service Centre menu to allow entry of BRC at the service centre.
- Checklist shall be generated at the service centre, which is required to be approved by the exporter. Thereafter job number shall be given to the exporter.
- The BRCs shall be verified by the Customs officer. A new role has been created for this purpose. The Customs officer will select a job for verification by entering/selecting its job number. The BRC wise data captured for the selected job will be displayed by the system. He will verify the correctness of this data against the hard (original) copies of corresponding BRCs provided by the exporter. He is allowed to add/delete/update data while verification. He will register his consent for Acceptance/Rejection against each BRC. Only accepted BRCs will be considered for drawback, release/stop purpose.
- If the BRCs are not submitted by the exporter within the stipulated time (which is taken as six months for now), the system shall alert the AC/DC (Exports) for full realization. The officers must thereafter take necessary action for recovery of the drawback.
- The system shall simultaneously block the sanction of drawback amount to the exporter to the extent of the FULL DRAWBACK INVOLVED IN THE UNREALISED SHIPPING BILL.
- The AC/DC exports may free the blocked drawback amount either fully or partially after realizing the drawback of pending BRCs.

4. All exporters must submit the BRCs and details of all the Drawback Shipping Bills filed on or after 01.04.2004, which should be entered in the new module. The system shall start generating alerts for the AC/DC(Exports) for all the Drawback Shipping Bills where BRC is not submitted within six months of date of Shipping Bill from 1<sup>st</sup> May 2005.

5. The details of the screens and the methods of entry/verification is provided in Annexure 'A'.
