STANDING ORDER NO.1/2009 DATED 16.07.2009

In a recent case of export of Ladies' Midis, some lapses in the procedure prescribed for drawing samples have been observed. The export was made under Duty Free Import Authorisation(DFIA). The DFIA scrips prescribed GSM for both the import fabric and export garment with a flexibility of $\pm 10\%$. The export shipments were stuffed under Central Excise supervision and sealed samples were sent along with the goods. In view of the closed nexus prescribed in the scrips, samples needed to be drawn from each export shipment for test to determine that this condition was satisfied in every case. It was observed, however, that although samples were drawn from export consignments these were not sent for test.

2. This is contrary to Public Notice No. 06/2000 dated 22.06.2000 issued on this subject. The instructions contained in that Public Notice cover testing of samples drawn where stuffing into containers is done under Central Excise supervision and where such stuffing is done in the Docks. These instructions are being reiterated for strict compliance in future.
